Section Slide as Header Level 1

Slide Title as Header Level 2

Subtitle as Header Level 3

You can put any content here, including text, images, tables, code blocks, etc.

- ▶ first unordered list item

- A sub item

- A sub-sub item

- 1. first ordered list item

- i. A sub item

- a. A sub-sub item

Next, we'll briefly review some theme-specific components.

Additional Theme Features

Some extra things you can do with the clean theme

Special classes for emphasis

- ▶ **alerted text** uses the secondary accent colour.
- ▶ **custom-coloured text** via `\textcolor`.

A short code sample to check the monospace font:

```
def hello(name):  print(f"hi {name}")
```

Blocks

Standard, alert, and example blocks all stay on-palette

A standard block

Block titles use the primary accent.

An alert block

Alert blocks use the secondary accent.

An example block

Example blocks stay within the theme palette too (not Beamer's default green).

Citations

Author–year, resolved from a .bib file

Citations come straight from **references.bib**. The natbib-style commands are available alongside biblatex's own:

- ▶ Textual: Callaway and Sant'Anna (2021) study staggered adoption.
- ▶ Parenthetical: a robustness check (Goodman-Bacon 2021).
- ▶ Multiple, sorted: (Callaway and Sant'Anna 2021; Arkhangelsky and Imbens 2024).
- ▶ biblatex equivalents also work: Arkhangelsky and Imbens (2024), (Goodman-Bacon 2021).

Figures

External .png and .pdf via \includegraphics

Drop an image next to your `.tex` and include it as usual — both raster (`.png`) and vector (`.pdf`) figures work under pdf_latex.

Figure: A raster `.png` plot.

Figure: A vector `.pdf` diagram.

Summary

Quarto Clean Typst Theme

LaTeX / Beamer port

This deck is a Beamer re-implementation of the Touying clean theme.

- ▶ Left-aligned titles, primary accent, triangle list markers.
- ▶ Slide counter **x/y** in the footer.
- ▶ Auto section slides via `\AtBeginSection`.
